

January 2025

Welcome to the 1st edition of the **AI Nurses Network** newsletter. We hope this monthly newsletter will keep you up to date with opportunities in this clinical research network as well as insights into what is happening with artificial intelligence (AI) in nursing and healthcare. AI is a busy space so we will do our best to keep you informed! More information is available on our dedicated [website](#) and [LinkedIn group](#).

Seed funding call opens

The seed funding call from the AI Nurses Network opened on the **6th January 2025** with the application form and guidelines available to download from the [website](#). The AI Nurses Network seed funding scheme supports the development of innovative and translational nurse-led clinical research on artificial intelligence which needs financial support to transform into competitive applications for larger research funding. The research must be aimed at creating positive change and value for patient care or population health.

Funding for AI research

A selection of UK funding programmes that are available to support research on artificial intelligence in health and care are summarised below to help you identify suitable funding streams to support your AI research.

NHS Fellowship in Clinical AI

NIHR Invention for Innovation

Applications for Cohort 5 of the NHS Fellowship in Clinical AI will open in late 2025. A webinar covering the features and curriculum of the fellowship, addressed frequently asked questions, and invited follow-up questions from applicants is available online [here](#).

[Read More →](#)

The NIHR Invention for Innovation (i4i) Programme is a translational research funding scheme aimed at medical devices, in vitro diagnostic devices and digital health technologies addressing an existing or emerging health or social care need.

Turing Lecture Series - Can we trust AI?

This online webinar explores the complex relationship between artificial intelligence and society, examining its impact on our democratic processes, decision-making systems and, crucially, trust.

[Watch Online →](#)

Podcast: Liability and Healthcare AI

Who will be held to account legally for harm caused by AI use in Healthcare? This podcast from the Royal Society of Medicine delves into this knotty question with Majid Hassan- a solicitor and partner

Children's AI Summit

On February 4th, 2025, the Children's AI Summit will bring together children from across the UK to share their messages for global leaders, policymakers, and AI developers on what the future of AI should look like.

at Capsticks LLP specialising in Healthcare litigation.
